

Made in Germany

arcotest® ORGANIC Test Inks and arcotest® ORGANIC Test Pens available from 31 to 46 mN/m

arcotest® ORGANIC Test Inks are special testing liquids in ranges of defined surface tension – in green colour. They were developed to obtain non-toxic test inks that do not require labelling. The application and handling of arcotest® ORGANIC is based on DIN 53364 re. ISO 8296. The ORGANIC Test Inks are available in bottles or in pens from 31 to 46 mN/m (Dyn/cm).

Test Ink since 1976

Not poisonous
Not harmful to the environment
Not subject to labelling
Not harmful to health
